They have not been set.

I will see what info they have though.

Sure. If they have OWQPs set, the EP/DS limits would be helpful to know as well.

Those would go to their field inspector. Can I ask East Chicago for them?

Hi Stacy,

We are starting to get the water sampling results back from East Chicago and the first home had 0.05 mg/L as Total P and the second had ND as Total P. Do you have recent MORs you can send with East Chicago's ortho levels at the EPs and DS?
